SUMMARY

Hands-on engineering and design leader with deep experience building consumer platforms, scaling teams, modernizing digital products, and applying AI to real workflow problems. Combines leadership across engineering, product, design, and editorial with strong technical depth in web, mobile, cloud, and AI-enabled systems. Known for translating prototypes and experimentation into practical platform improvements, team growth, and measurable operational impact.

SELECTED IMPACT

- Hired managers and engineering teams to support NBC News Group subscription growth and broader digital platform delivery.
- Reduced live and short-form video player implementations across digital products from 8 to 2, lowering fragmentation and simplifying maintenance.
- Spun down a large legacy application, creating cost savings and reducing maintenance overhead across multiple teams.
- Built custom agents to support newsroom newsgathering, scheduling workflows for on-air producers, and faster design and development execution.
- Led office hours and practical AI enablement sessions that helped teams adopt agentic tools to improve speed, quality, and collaboration.

EXPERIENCE

Director of AI Engineering

NBCUniversal | New York, NY

Jul 2025 - Present

- Lead AI and agentic workflow initiatives across NBC News, partnering with editorial, design, product, and engineering teams to improve experimentation velocity and day-to-day execution.
- Built custom agents that support newsroom newsgathering, improve scheduling for on-air producers, and streamline collaboration between design and engineering.
- Held office hours and practical enablement sessions that helped teams incorporate agentic tools into everyday workflows more confidently and effectively.
- Guide technical direction across AI-enabled discovery, personalization, and workflow systems spanning React, Node.js, and cloud-native infrastructure.

Director of Engineering, NBC News Group Digital

NBCUniversal | New York, NY

Oct 2021 - Jul 2025

- Built and scaled engineering teams, including hiring managers and engineers to support the subscription business and broader digital product portfolio.
- Consolidated live and short-form video player implementations across digital products from 8 to 2, reducing platform fragmentation and operational complexity.
- Retired a large legacy application, producing cost savings and reducing maintenance overhead across many teams.
- Led modernization across web and mobile platforms using React and TypeScript while improving reliability, performance, onboarding, and team health.

Tech Lead, CNBC.com Engagement

CNBC | Englewood Cliffs, NJ

Sep 2015 - Oct 2021

- Led interactive and personalization initiatives across CNBC.com, with emphasis on engagement, subscription workflows, and dynamic market-data experiences.
- Partnered with design and product to create prototypes that informed engagement strategy and shaped feature direction.
- Mentored engineers in architecture, experimentation, and creative problem-solving.

Senior Interactive Designer

CNBC | Englewood Cliffs, NJ

Jan 2007 - Sep 2015

- Designed and built interactive experiences, prototype-driven concepts, and exploratory web and iOS interfaces.
- Established a strong foundation in interaction design, animation, and rapid iteration that continues to inform leadership and product development work.

SKILLS

Leadership: AI engineering leadership, engineering management, org design, hiring, team building, coaching, product discovery, cross-functional partnership

AI and Workflow: Agentic AI, workflow automation, newsroom tools, custom agents, AI enablement, ChatGPT, Gemini, Cursor, GitHub Copilot, Microsoft Copilot Studio, Power Automate, Microsoft 365

Technical: JavaScript, TypeScript, React, React Native, Node.js, Python, Swift, PHP, GraphQL, AWS, GCP, Docker

Delivery: Design systems, coded prototyping, interaction design, experimentation frameworks, CI/CD, GitHub, SonarQube, Datadog, Firebase, Figma

EDUCATION

Mount Ida College - Associate of Arts, Graphic Design

Katherine Gibbs School - Associate of Arts, Visual Communications
